Keith Alexander, Paul Brodhead, Richard Bustamante
Discussion (a series of group text messages that have been transcribed by hand):

Richard (R): Hey, I'm gonna take the lead on this project bc I know most of this stuff from senior project. You guys are welcome to help out wherever, but I shouldn't need that much help.

Paul (P): sounds good, Keith and I can work on most of the documentation in that case. Can you share the GitHub repo please?

R: yea sure

Keith (K): Rich, let us know if you need help with anything, I feel kinda bad if you do the whole thing lol

R: I might need some debugging help, we'll see

R: So turns out the project wasn't terrible. I nearly finished it lol

P: oh damn, that's really impressive. Did you get any of the extra credit to work?

R: I can try lol

P: no biggie, I was just wondering for documentation purposes.

A: Jesus Christ man! Thank you so much for taking the lead Rich, I've got tons of stuff due this week lol.

R: yea np man
